

Multi-zonal Learning Days Workgroup Skype Minutes Tues April 2, 9:30pm

- Opened with moment of silence and serenity prayer
- Members present: Barry B., Pat P., Daniel C., Amanda M., Mary B., Cindi B.
- Workgroup is tasked with (from the PSZF minutes): "...investigate what's needed for a multi-zonal service learning conference, and report back at the next zone." We discussed the purpose of the workgroup and made clarity that our intent is not to "plan the event". We discussed that we didn't have any participants from Midwest Zone but that was due to lack of resources. Minnesota is definitely interested.
- Old Business
 - Completion date of this workgroup was decided to be June 7th so our report could be given by June 8th to the Mid-West Zone to be reported at their Zonal Forum on June 8th and 9th and then on to the Southern and Plains State Zone.
 - We will be meeting every other Tuesday at 9:30 p.m. C.S.T.(4/16, 4/30, 5/14, 5/28)
 - Amanda M. and Barry B. reported from Florida Symposium (report attached) highlights were:
 - Located near airport
 - Knew their "target audience"
 - Scheduled with a PR event
 - Good hotel relations
 - Development and Evolution of Programming
 - Advisory Board
 - NAWS Participation
- New Business
 - Need of "Advisory Board" and the definite need for rotation. Members could include RD's, member of Host Committee could also rotate to next board for ESH from previous conference
 - This service conference might begin as "multi-zonal" but could evolve into a zonal event in each zone depending on need and resources

- NAWS presence – we have their support. We would collaborate with them.
NAWS presence definitely brings and attraction to the event.
- Purpose of the event based on need and that could determine the location – we would want to go where the need for development was the greatest.
- Action plan
 - discussed different aspects of event to research and divide tasks among workgroup members. These were divided and delegated to:
 - Purpose – everyone
 - Location/Hotel/Facilities – Mary B. and Pat P.
 - Programming – Amanda M., Barry B., Daniel C.
 - Resources/NAWS – Barry B. and Cindi B.
 - Technology – Barry B. and Daniel C.
- Next Skype meeting – Tuesday, April 16th, 9:30 p.m. C.S.T.

- Close
